

REMARKS

Favorable consideration of this application and entry of the foregoing amendments are respectfully requested.

The specification has been amended to include the Sequence Listing submitted herewith on separate sheets. Entry of the Sequence Listing does not raise the issue of new matter as the sequence information contained therein is presented in the application as originally filed. The computer readable copy of the Sequence Listing submitted herewith is the same as the attached paper copy of that Listing. It will be noted that the sequence of SEQ ID NO:46 in the present Listing differs from that presented in the prior Listing. The difference results from the fact that, in preparing the prior Listing, superfluous textural and sequence information was inadvertently combined with the file that contained SEQ ID NO:46.

An early and favorable Action on the merits is requested.

Respectfully submitted,

NIKON & VANDERHYE, P.C.
